

Metal Safety Scraper

Use this handheld metal scraper in commercial, industrial or institutional applications to remove gum, dried on food or sticky residues from a variety of surfaces.

This heavy-duty, all-steel scraper has a retractable blade and a safety mechanism that keeps the blade from sliding out while in use. Sharp and easy to handle, it can remove adhesives and sticky residues without damaging the surface. The compact size of this scraper makes it easy to carry around in your tool box or work belt. Also available in a very sturdy [1-1/2" Professional Safety Scraper](#) format. Need to change your blade? Purchase your [Safety Scraper Razor Blade Refills in packs of 100](#) or [5](#).
