

## Absorb-O Absorbing Granules

Absorbent Granules  
Item #AR59184

### Versatile, Heavy-Duty Cleaning Performance

Absorb-O is a ready-to-use absorbent granule designed to quickly soak up liquids, oils, and spills. Made from diatomaceous earth, it provides fast absorption and easy cleanup for a wide range of applications. Ideal for maintaining clean, safe surfaces in industrial, commercial, and maintenance environments.

### Primary Applications

- Oil and liquid spill cleanup
- Workshops and industrial floors
- Garages and maintenance areas
- Warehouses and loading docks
- General spill control and cleanup

### Recommended Dosage / Dilution

Application	Use
General spills	Apply directly to spill
Oil and grease	Cover spill completely and allow absorption
Large spills	Use sufficient quantity to fully absorb liquid
Cleanup	Sweep or collect and dispose properly

### Basic Handling Tips

- Apply directly to spill and allow time to absorb
- Sweep or collect material after use
- Avoid creating dust during application
- Store in a dry area and keep container sealed
- Avoid breathing dust during use
